Doug Hugill talks about his role at ABC Recycling

Doug Hugill joined ABC Recycling in September 2000. Doug's responsibilities as Accounting Manager include: payroll for all ABC locations (excluding Kelowna); benefits and pension administration; approval of wires and direct deposits in the Royal Bank payments system; buying US funds for Accounts Payable needs; and general accounting duties.

Before coming to ABC, Doug worked for 23 years in the food industry at a meat cannery in Richmond doing cost accounting and payroll. After the business was sold, Doug had a brief interlude doing consulting work and driving for a courier company. One day when he was out at UBC making a courier delivery, Greig Pow called him in for an interview at ABC. He was hired to do Accounts Receivable and Payroll and here he is 14 years later.

Starting in April, Doug will be reducing his work load to three days a week. With the addition of ABC Recycling's Payroll and Benefits Administrator, Eileen Drozdowski, Doug will act as back-up for Payroll. He will also maintain his responsibility for the Royal Bank systems and special projects.

When Doug is not at work, he enjoys walking and reading. He is also an avid fan of the Newcastle United Soccer Team (his alma mater).

Mr. Heart Breaker

Congratulations to Randy and Tiana on the birth of their son, Dex Ranjit Kahlon, on January 3, 2014.

Cash Dispensing Machine in Surrey

ABC Recycling Surrey now has a cash dispensing machine, up and running since December 2013. The machine has been very well received and customers are appreciative of having this added service available to them.

Employee Milestones
