

ABC Recycling Ltd. is seeking a certified Millwright for a full time permanent position at our metals recycling facilities. This position will primarily focus on our Burnaby facility, working as part of a team that supports operations through troubleshooting, repair and maintenance of equipment. However, incumbents can expect some travel to our other facilities as required. Our maintenance team can operate on a 24/7 basis, so flexibility to work shift work is required.

Successful candidates should have their interprovincial (red seal) certification or BC trades qualification (BCTQ) and ideally five or more years experience in a heavy industrial setting.

We are looking for safety conscious individuals that are both self starting problem solvers and cooperative by nature. You must be comfortable in a fast paced industrial operation and can embrace changing work situations. Candidates must be willing to learn and grow.

What makes a good company great? At ABC Recycling we know it's quite simply our people. We have built many long-standing relationships and careers by treating our employees like family. To find out more about what makes ABC a great place to work, please visit other areas of this website.

We offer a competitive wages with true job security, an excellent benefits package, a pension plan, life insurance, educational support, profit sharing and a superb social network of fun and activities.

To apply, please email your resume to hr@abcrecycling.com. Please specify the position you are applying for as the subject line of your email.
