

Maintenance Manager

ABC Recycling has created a new position for a **Maintenance Manager**. Our preferred candidate will have a strong background in maintenance and repair of a **broad range of mechanical equipment, good technical and troubleshooting skills**. ABC Recycling currently has three work sites (Burnaby, Campbell River and Surrey) with equipment ranging from crane trucks to barges to excavators. This is an opportunity to join a nearly 100 year old 4th generation family owned business. ABC Recycling is growing and has been recognized for their excellence through many awards such as Top 100 Private Companies, Grant Thornton Award, Business of the Year, and many other achievements.

Your primary responsibilities will be to keep the sites operating safely and efficiently using preventive maintenance programs; organizing and checking maintenance work for completeness; and scheduling maintenance and repair work to minimize interruption of production time. You will develop projects to upgrade or improve technology following a well planned, cost effective approach. You will develop a team of maintenance staff who can work with all other departments and clients using strong relationship building, collaboration and communication. This position participates as a member of the management team, contributing to corporate decisions; determining the costs and implications of the maintenance programs; and evaluating risks. You will bring a Bachelor's degree or a combination of education and experience as an engineer or millwright conducting maintenance of equipment and facilities with 7 to 10 years of experience; 3 to 5 years of supervisory experience; a valid driver's licence; the ability to obtain and maintain a Criminal Record Check and hold WHMIS certification.

For more details go to <http://www.abcrecycling.com/CAREERS>. ABC Recycling offers a competitive salary, an excellent benefit package, profit sharing, and many other benefits. To apply, please send your resume and cover letter to submitapplication@shaw.ca by Tuesday, May 31, 2011.
